01 PROFILE

A self-taught web developer with 7 years experience in building digital products that solve real problems. I'm passionate about creating seamless, user-friendly experiences that not only look great but feel intuitive. Whether it's optimizing performance, refining UI/UX, or developing scalable solutions, I focus on delivering products that truly enhance the user experience.

02 EMPLOYMENT HISTORY

04/2018 — 02/2025

Frontend Engineer at Bird

- Implemented optimized code that improved application performance and responsiveness, including working on the implementation of all measurement points and building Grafana dashboards to view performance data from Prometheus, testing app speed, interaction speed, and other key performance metrics.
- Worked collaboratively in teams to deliver features quickly and iterated on them while maintaining high code quality.
- Engaged in user testing and feedback sessions to refine functionality and design.
- Regularly participated in technical design and architecture discussions to influence product direction and implementation.
- Delivered features in sensitive parts of the application, including authentication, platform security features, and management of permissions and roles, ensuring secure access control across the platform.
- Took ownership and led many projects from planning to execution and deployment in production.
- Contributed to high-priority projects that were crucial for the company's success, including features focused on acquiring new customers, providing additional features to meet new customer use cases, and also to acquire strategic partnerships with other companies.
- Wrote RFCs and proposed architectural solutions for new products or UI features.
- Mentored other developers and led workshops, demos, and presentations to share knowledge.

08/2017 — 01/2018

Junior Frontend Developer at Deskbookers

As a Junior Frontend Developer at Deskbookers, the responsibilities involved assisting in the development of web applications while gaining valuable experience in frontend technologies. Working under the guidance of senior developers, tasks included implementing features and troubleshooting issues to improve user experience. Engaging in collaborative projects helped to enhance skills and understanding of coding standards.

- Contributed to the development of new features and enhancements based on user feedback.
- Gained hands-on experience with JavaScript, HTML, and CSS while adhering to best practices.
- Assisted in debugging and resolving issues in existing applications.
- Participated in code reviews to improve coding standards and practices.

02/2017 — 12/2017

Finance Manager at Deskbookers

As Finance Manager at Deskbookers, responsibilities included overseeing financial operations and ensuring fiscal responsibility within the organization. This role involved budgeting, forecasting, and financial reporting to support strategic decision-making. Engaging with various departments facilitated effective communication and collaboration to achieve financial goals.

- Successfully managed budgeting processes and financial forecasting to optimize resource allocation.
- Prepared comprehensive financial reports for senior management to inform strategic decisions.
- Collaborated with cross-functional teams to align financial goals with operational strategies.
- Improved financial record-keeping and reporting processes, enhancing transparency and accountability.
